

# Jason Clixby

Web Developer / Programmer / Computer Scientist

I am an ambitious, motivated and driven individual. I love getting stuck in, solving problems and I'm a quick learner.

## SKILLS

HTML/CSS PHP

Sass Javascript

jQuery React

Gatsby Netlify

Version Control

Netlify CMS

WordPress

Expression Engine

Shopify

## INTERESTS

Video Games Music

Guitar Football

Technology Science

## WORK EXPERIENCE

### Web Developer House Creative

09/2020 - Present

Remote

Achievements/Tasks

- As the only developer in the team, I oversee and manage almost all web dev aspects of the company and clients, such as: web dev, hosting, version control, project deployments and quoting.
- Improved the processes included in web projects, such as introducing version control (using Github), project deployments (using DeployHQ), introduced a project management system (Asana), improved our standards on accessibility, performance & testing.

### Front End Web Developer Chatter Communications

02/2019 - 08/2020

Achievements/Tasks

- Built bespoke careers and corporate websites (using Expression Engine) for a range of large clients such as ITV, O2 and McLaren.
- Built a WordPress network, and built themes within it, to allow us to create a resell-able, customisable product for (potential) clients with similar needs.
- Did performance and accessibility audits for current clients and future prospects, and also acted on some of those by performing website upgrades increasing page speeds and accessibility.
- Overlapped into other creative avenues such as web design and video editing and blog writing.

### Lead Developer Diony Creative

09/2018 - 01/2019

Achievements/Tasks

- Managed many of the technical aspects of the projects, being the sole developer of the team.
- Built an array of bespoke Wordpress websites.
- Managed clients on a daily basis, including attending meetings for the company to develop software solutions for clients.

### Web Developer Mobius Media

04/2014 - 09/2016

Achievements/Tasks

- Initially joined the company as an apprentice with little experience.
- Managed and completed multiple projects, including front-end and back-end development, a lot of which were bespoke Wordpress themes built by myself.
- Eventually became the 'go-to' person for Wordpress builds, responsive web development and mobile optimisation within the diverse team of developers.

## EDUCATION

### Computer Science Bsc (2:1) University of Hull

09/2016 - 07/2019
